

The Compounder's Manifesto

Built to Grow Big.

Gro Big Big is a business services buy-and-build platform — two operating brands, one standard, built to grow big big.

SECTION ONE

01

About Gro Big Big

Who is Gro Big Big? Our history

— THE HOUSE

One parent. Two specialists.

Gro Big Big builds and holds corporate-services brands. Each keeps its own name, palette, and clients — and inherits the group's standard for trust, tooling, and delivery.

2 brands

grof & AccPro — one buy-and-build platform

1,500+

Active customers served
across the group

~41

people across SG, MY, PH &
ID

74%

revenue CAGR since 2019

THE POSITIONING

One group. Two flight paths.

Like the SIA Group — one parent flying two very different aircraft, each built for a different passenger. We hold our brands the same way.

Gro Big Big

— one holding company, like the SIA Group

FULL-SERVICE CARRIER · LIKE SQ

accpro

Full-service

Every comfort, high touch. Advisory-led service for established SMEs that want a partner across accounting, tax, HR and compliance.

LOW-COST CARRIER · LIKE SCOOT

grof

Digital-first

Lean and fast. A proprietary platform and self-serve motion for founders and startups that want to move quickly.

— OPERATING BRANDS

Two specialists, one standard.

Digital corporate services

TARGET SEGMENT

Startups & tech-enabled SMEs

CORE SERVICES

Incorporation, corp sec, accounting & taxation

GO-TO-MARKET

Digital-first — social, SEO & online referral channels

DIFFERENTIATOR

Proprietary tech platform; visa & AP automation

Full-service firm

TARGET SEGMENT

Established SMEs seeking advisory & digitalisation

CORE SERVICES

Accounting, tax, HR, payroll, compliance, IT implementation

GO-TO-MARKET

Training, events, grants & SaaS partnerships

DIFFERENTIATOR

Strong govt & vendor ties; IT automation focus

Four segments, one platform.

SEGMENT 1

Nano & Micro SMEs

Founders, 5–10 staff · SGD 500K–2M revenue. Still on Excel or legacy desktop software.

ACV

SGD 3K–6K

"Your first properly connected cloud stack."

SEGMENT 1B

The Overwhelmed Owner

Founders, 10–50 staff · SGD 2M+ revenue on costly legacy ERPs. Looking to cut SaaS & headcount cost.

ACV

SGD 3K–20K

"Outsource the back office — reduce cost, keep control."

SEGMENT 2

The Trapped CFO

CFOs at SG SMEs under SGD 100M, overpaying for SAP Business One or NetSuite. Has authority to switch.

ACV

SGD 10K–30K

"Cut your ERP costs by up to 95% — without losing what matters."

SEGMENT 3

The New Arrival

Foreign companies entering Singapore, already on Xero or QBO at home. Needs GST, CPF & payroll — fast.

ACV

SGD 5K–15K

"Singapore-compliant financial infrastructure from day one."

OUR TECHNOLOGY

We own our tech — so we scale efficiently.

A proprietary tech team builds the platform both brands run on. Join us and your operations plug straight into it.

CORE

V2 SOON

Practice management

- Manages jobs and deadlines across every engagement
- Oversees billing end-to-end
- One source of truth for capacity and delivery
- KYC and compliance record-keeping

OMNI

LIVE

Client communication

- Consolidates every client conversation in one place
- Gives clients full transparency on their work
- Automates routine customer support
- Monitors service levels

Grof Ledger

LIVE

AI-assisted bookkeeping

- Extracts bank statements and categorises with AI
- Produces GL, management accounts & FS compilation
- Autonomous agentic system automates closing & payroll (in testing)

Team built their own AI use case.

Culture and access to tooling encourage teams to develop their own AI tools.

Seasoned investors and operators.

Founders and independent directors
steering the group.

Kam Weng Leong

Co-Founder & CEO · grof & AccPro

- Investment professional at EDBI — deployed growth-stage capital for Singapore's Economic Development Board
- Private equity at The Riverside Company — mid-market PE across SEA
- Investment banking at mid-market banks

Jackson Lim

Co-Founder & CRO · grof & AccPro

- Finance leadership at Bain & Company, Vector Aerospace, Lear Corporation and Ferac Industries
- Led finance, tax, budgeting and group consolidation across professional services, manufacturing and industrials
- Chartered Accountant

Zachary Lee

CIO, Gen Capital Partners

- Lower mid-market SME buyouts across SEA
- Investment roles at The Radical Fund, K3 Ventures and EDBI — growth equity into tech
- Co-Founder of Freshman — D2C F&B brand, 7 outlets in Singapore; ex-P&G

Chan Kok Tjun (KT)

Co-Founder, Springtide Equity Partners

- Invests in SMEs with enterprise value of USD 2–10M
- Manages Talaypu Natural Products — grew to 80 staff and 10× expansion
- Former BCG London; BSc (LSE), MBA (Harvard)

MANAGEMENT TEAM

A full-fledged team with a proven track record.

~41 headcount running both brands to one standard, across four markets:

Singapore

Malaysia

Philippines

Indonesia

Jackson Lim

CRO & Partner

Jason Lim

Partner, Head of Accounting

Lim Mei Khuan (MK)

Operations Director

SECTION TWO

02

Opportunity

Why a roll-up, why business services — and why now.

THE OPPORTUNITY

Problems faced by small & mid-sized CSPs.

A vicious cycle keeps small practice owners trapped — the root causes feed each other, and the symptoms pile up.

THE SYMPTOMS

Each root cause shows up as symptoms owners live with, day to day.

1 Stagnant growth

Unscalable growth

Limited exit value

2 Owners take most of the profit

Succession issues

Key-man dependency

3 No investment in tech & brand

No bandwidth for AI

Risk of disruption

4 Can't recruit or retain talent

Recruiting stress

Daily fire-fighting

5 Competes on price, not value

Pricing pressure

Customer churn

Why now?

Rising demand for outsourced accounting

SMEs struggle to hire and retain accountants — university accounting cohorts are down ~**40%** since 2018.

E-invoicing mandates

Malaysia has mandated e-invoicing; Singapore is rolling out the same for GST-registered companies.

Low CSP digitalisation

Only **18%** of micro accounting firms use cloud accounting; just **6%** use a practice-management system. ¹

Rising regulatory burden

A global tax regime plus the CSP Act raises cost and risk — hardest on the smallest firms.

AI transformation

AI can't fully replace accountants yet — but a tech-first CSP can adopt it far faster than traditional firms.

The window is open — and the incumbents can't move.

Inspiring roll-up role models.

The same strategy is already building outsized value across Asia's corporate-services market.

Acclime

Hong Kong · 2019

Founded by ex-Vistra CEO Martin Crawford and run as an "M&A machine" — a tech-forward, partner-led platform now spanning 18 markets and 2,000+ professionals, with its own AI engine, Aura.

Track record	56 add-on acquisitions
Backing	Warburg Pincus, 2025
Valuation	≈ US\$1b

Ascentium-Incorp

Singapore · 2016

Hillhouse-backed platform that consolidated InCorp Global, Dezan Shira and others in a single year — now 2,500+ professionals across 23 markets serving 60,000+ client entities.

Track record	>20 deals in first 5 years
Backing	Hillhouse (ex-TA)
Scale	60,000+ entities

YYC

Malaysia · 1974

A family accounting firm scaled by the next generation — first with OCBC's RM60m in 2019, then Temasek's SeaTown, funding acquisitions across Malaysia, Singapore and Hong Kong.

Track record	Buy-and-build in SEA
Backing	SeaTown / Temasek
Scale	1,100+ staff · 20k clients

Sources: Warburg Pincus / Bloomberg / Mergermarket (Acclime); Ascentium & Hillhouse releases; The Malaysian Reserve / SeaTown (YYC).

THE AMBITION

Build a leading professional-services firm in Asia Pacific.

Grow geographically and deepen our offerings — becoming a leading business-services firm across the region.

SCALE & FUNDING

- Pool resources to invest in brand, technology & strategic mergers
- "Too big to fail" standing with regulators & associations
- Access to lower-cost funding

BRAND & CLIENTS

- A world-class brand through combined investment
- Differentiated offerings & employer branding
- Greater stickiness & share of wallet with larger enterprises

GOVERNANCE & EXIT

- Exit opportunities at enhanced valuation
- Diversified key-man risk
- Enhanced governance & returns profile

SECTION FOUR

04

Our model

How the platform is built — and how it runs, day to day.

The business operates via three distinct divisions.

ONE COHESIVE GROUP

Business Units

Client facing

ROLE Revenue owner

- Advisory & solutions
- Account managers
- Sales & business development

► Wins & owns the client relationship

Service Delivery

Productivity / tech-enabled

ROLE Cost & productivity owner

- Renders services & deliverables
- Consistent standards & quality
- Offshore Shared Delivery Centres

► Delivers the work, at scale

Business Enablement

Central & shared

ROLE Builds long-term advantage

- Supports both BU & Service Delivery
- Ops, HR, Tech, Compliance, Marketing
- Expresses our value proposition

► Powers both — the shared advantage

Business Units win & own clients

Service Delivery executes

Enablement powers both

Autonomous BU · centralised enablement · hybrid delivery.

EXISTING / HOME MARKETS

NEW MARKETS

CORPORATE SERVICES

Fully integrated delivery

Partner manages their own client portfolio. Fully integrated service delivery with local jurisdiction awareness + licence.

Hybrid delivery · cross-sell

Partner manages their own client portfolio. Common functions fully integrated; local jurisdiction expertise layered where necessary. Cross-sell across markets.

OTHER SERVICES

New delivery team

Partner manages their own portfolio. New & separate service delivery team. Cross-sell across SG clients.

New team · widest cross-sell

Partner manages their own portfolio. New & separate delivery team. Cross-sell across products & markets.

Enabled by BET — investment in tech, brand equity & HR employer branding

Cross-selling & joint marketing across the group

Growing BUs via "tuck-in".

Aim to do tuck-in acquisitions as much as possible — with two models for where the rollover sits.

MODEL A · BU1 — SG CORPORATE SERVICES

Consolidate rollover at GBB

Full alignment of interest across all Partners.

MODEL B · BU2 — MY CORPORATE SERVICES

Consolidate rollover at BU level

Fixed-term put & call to buy out minority. **Stronger BU-level incentive**, at the expense of Group alignment.

— MULTIPLE EXPANSION POSSIBILITIES

Add ancillary services to expand revenue potential.

Non-core for most CSPs — a natural cross-sell once you have scale and one client relationship.

THE CROSS-SELL

One client relationship unlocks many revenue lines — lifting revenue per client and deepening stickiness.

Why should Partners join us?

GAABI

G

Grow the business. Strong marketing practice, shared best practices, the group's geographic network, cross-selling — plus support for Partners' own M&A.

A

Autonomy or succession. Keep significant autonomy within the charter and annual budget — with succession plans for Partners ready to step aside.

A

Arbitrage the exit multiple. Instead of a standalone practice at 3–5× EBITDA, the group can facilitate an exit at **10–12× EBITDA**.

B

Backoffice delegation. Offload the work Partners dislike — HR, finance, admin, compliance — and focus on serving clients and winning business.

I

Improve cash flow & margins. Sustained investment and shared best practice let SDCs roll out productivity gains that lift each BU's margins and cash flow.

Why are we best positioned to do this?

01

A platform built to scale

Invested in and built a tech and operating platform that lets the business scale.

PROOF

- ✓ Unified ERP + practice-management stack
- ✓ AI automation running in production
- ✓ Investment into platform — brand equity & GTM strategies

02

A proven M&A track record

Demonstrated M&A and integration experience
— and committed to scaling the business.

PROOF

- ✓ Acc Pro already consolidated into GBB
- ✓ Issued 3 term sheets in the last 6 months
- ✓ Likely to close one deal in SG by Oct

03

Aligned, funded promoters

Fully vested promoters with access to both debt and equity funding.

PROOF

- ✓ Promoters fully vested in the platform
- ✓ Debt & equity funding lines in place

A flywheel that scales via M&A. Clear path to \$50m.

Leverage always remains conservative — $\rightarrow$ net debt held $<2\times$ EBITDA throughout the cycle.

Group revenue S\$'m

\$50m target

Grow big big — **run calm.** Big intentions, held to one standard.

Build the platform the next thousand firms will want to join.
